Picks-up and locks 99,9% of fine dust*

Thanks to exceptional suction and Allergy Lock

The Philips Bagless Vacuum 7000 Series features our highest ever suction power. Make supreme cleaning effortlessly simple with PowerCyclone 8 technology and TriActive+ nozzle featuring 3 optimized cleaning actions in one.

Superior performance

- Allergy Lock traps dust inside for a high level of hygiene
- PowerCyclone 8 delivers extreme suction power for longer
- Powerful 2100W motor for high suction power
- TriActive+ nozzle to deliver high performance on all floors
- Allergy H13 filter system captures >99.9% of fine dust

Effortless cleaning

- Soft brush integrated into handle, always ready to use
- Digital power control function to adjust suction power
- Dust container designed for hygienic emptying with one hand
- On board accessories: Conveniently stored, always at hand

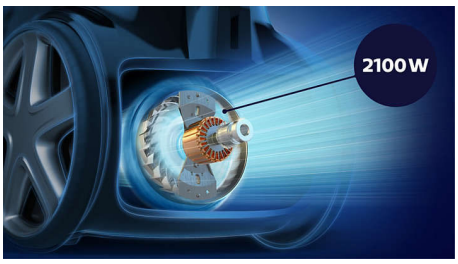
PHILIPS

Bagless vacuum cleaner
2100W PowerCyclone 8, Allergy Lock, On board accessories

FC9732/61

Highlights

Powerful 2100W motor



2100W motor generates up to 470W of extreme suction power for powerful performance and superior cleaning results.

PowerCyclone 8 Technology

PowerCyclone 8 technology features a powerful, swirling action to maximize air flow and activate extreme suction power. Super accelerated air flow in the cylindrical chamber efficiently separates dust from the air at >185km/h, ensuring stronger suction power for longer, for superior cleaning results.

Allergy lock

Allergy Lock system uses a sensor to ensure dust container is fully sealed before operating, trapping dust and allergens inside for a clean and ultra hygienic environment.

TriActive+ nozzle

TriActive+ nozzle utilizes 3 cleaning actions in one go. It features a larger opening at the front to suck up larger debris while the specially designed soleplate removes dust from deep within carpets. Air channels and brushes on both sides of the nozzle pick up any dust and dirt alongside walls or furniture.

On board accessories

Onboard accessories are stored conveniently inside the back compartment so they're always easy to access when you need them.

Digital power control

Digital power control function easily adjusts suction power for different cleaning tasks, from hard floors to soft furnishings, with the touch of a button.

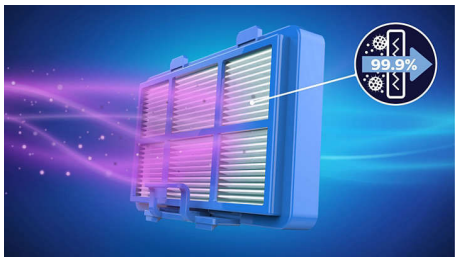
Hygienic dust disposal

Easy-to-empty dust container is designed for hygienic disposal with one hand to help minimize dust cloud.

Integrated brush

Dusting brush tool is built into the handle so it's always ready to use on furniture, flat surfaces and upholstery.

Allergy H13 filter



Allergy H13 filter system catches >99.9% of fine dust particles - including pollen, pet hair and dustmites - ideal for allergy sufferers. Filtration level is equivalent to HEPA 13**.

Specifications

Weight and dimensions
- Weight of product: 5.5 kg
- Dimensions of product (LxWxH): 505x292x292 mm

Design
- Color: Deep black

Performance
- Input power (IEC): 1800 W
- Airflow (max): 39 l/s
- Sound power level: <82 dB
- Input power (max): 2100 W
- Suction power (max): 470 W

Usability
- Tube coupling: ActiveLock
- Action radius: 10 m
- Carrying handle: Top and front
- Tube type: Metal 2-piece telescopic tube
- Power control: Electronic on appliance
- Cord length: 7 m
- Wheel type: Rubber

Nozzles and accessories
- Accessories included: Crevice tool, Small nozzle, Integrated brush
- Standard nozzle: TriActive+ nozzle
- Accessory storage: On board
- Extra accessories: Filter replacement: FC6042/01

Sustainability
- Packaging: > 90% recycled materials
- User manual: 100% recycled paper
- Stand-by power consumption: < 0,5 W

Filtration
- Dust capacity: 2 L
- Exhaust filter: Allergy H13 filter
- Motor filter: Lifetime washable filter
- Filtration level: HEPA13 level**
