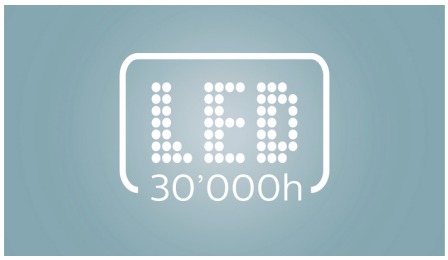
- Fully Connected (HDMI, USB, VGA or MicroSD)

Built-in Sound

- Stereo speakers for captivating sound
- Audio jack

Highlights

Advanced LED Light Source



The powerful LED light source displays rich, vivid colours and will last up to 30,000 hours. You won't need to replace it as it lasts 20 years with an average usage of 4 hours per day! Additionally, the power consumption is far lower than a regular lamp-based projector, which means you benefit from a bigger screen and fully immersive experience, all through an eco-friendly device!

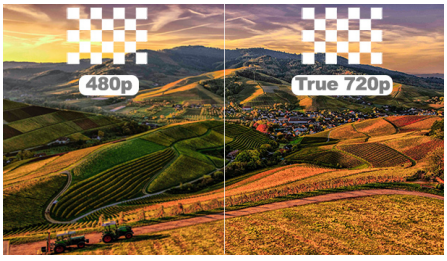
Customise your projection

Place the product wherever you want! The keystone correction combined with the focus technology allow you to fine-tune images to your needs and place your projector at any distance.

Project images up to 65"

Entertainment in every room, project anything up to 65" (165cm) diagonally.

True HD 720 p resolution



True HD 720 p resolution projection delivering clear text and sharp image quality.

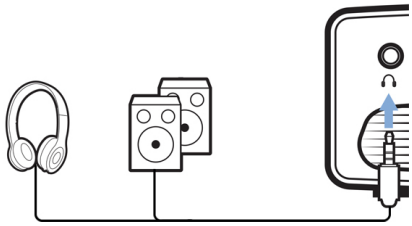
Built-in Media Player

Pop your essentials in your hand with the integrated Media Player: Browse, watch all of your videos, listen to your music or share your latest holiday pictures.

Fully Connected

Connect any multimedia devices such as set top boxes, PC, MAC, gaming consoles and streaming devices like Fire Stick or Apple TV with the USB, HDMI or MicroSD ports.

Audio jack



Connect any headphones or external powered speakers with the built-in 3.5 jack.

Stereo speakers

Integrated stereo speakers with equalisation and surround sound.
