Highlights

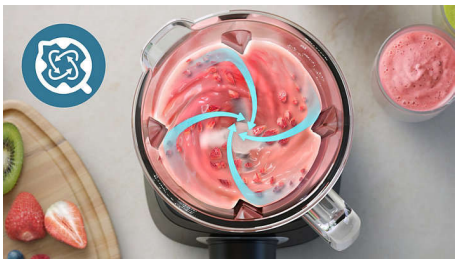
1200 W ProBlend Plus motor

50% more power* makes velvety smooth drinks, soups, and sauces from even the hardest ingredients, like frozen fruit, ice, and nuts.

New ProBlend Plus blades

Extended blades are longer and thicker to crush and blend even the hardest ingredients.

ProBlend Plus ribbed glass jar



Ribs in the glass guide your ingredients into the vortex for optimal circulation and ideal results.

Thick frozen-fruit smoothies

Make velvety smoothies and smoothie bowls from frozen fruit with little or no liquid needed. Use the tamper to push ingredients down and keep them circulating until you reach the perfect consistency.

2-liter capacity

Large 2-liter jar with a 1.5-liter working capacity makes smoothies for the whole family in one healthy, delicious batch.

3 speeds plus Pulse

Choose from three speed settings for hard and soft ingredients. Or use the Pulse feature for extra bursts of power when you need it.

Chopper

Your helping hand in the kitchen. Chop anything from vegetables to herbs, nuts, and more in just seconds or make your favorite sauces and dips.

Coffee & Spice Mill

Fill your kitchen with the delicious aroma of finely ground coffee, seeds, and spices in no time.

Detachable blades

Separate the blade unit from the blending jar to wash by hand or in the dishwasher.
