PHILIPS

car headlight bulb

DiamondVision

Type of lamp: H1

12 V

55 W, Pack of: 2

P14,5s

12258DVS2

Drive with style

Unique style with bluish white light of 5000K.

Very high quality and ultra resistant car lamp

Very high quality and ultra resistant car lamp

- Philips car lamps are made of high-quality quartz glass
- Philips car lamps are highly resistant against humidity
- Philips car lamps are highly UV resistant

Original Equipment manufacturer

- Change both your headlamps at once for more safety
- Philips is the choice of major car manufacturers

Bluish white light with 5.000K

- Bluish white light with 5.000K
- Wide range of 12V lamps to meet all functions
- Installed without electric adjustments.

Highlights

Bluish white light
Bluish white light with temperature color 5.000K and optimum performance in the light emission.

Car manufactuer choice

For 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting

Change by pairs

Highly recommended to change them by pairs for symetric light performance

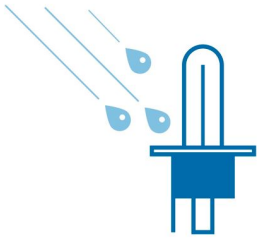
Designed for multiple usage
Which 12V lamp for which function ? Philips Automotive offering includes all car specific functions : high beam, Low beal, front fog , front indicator, side indicator, rear indicator, stop light, reversing light, rear fog light, license plate lights, rear position/parking light, interior lights

Easy to install
Easy to install, because it is not required any modification to the car's electrical system.

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650º C and glass 800º C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light

Resistance against humidity



Only a burning bulb made of quartz glass (filament 2650°c, glass 800°c) can resist thermal shocks : if a drop of cold water touches the hot bulb, which can happen when you drive through water with a broken headlight unit.

UV Resistant

Philips special anti-UV coating technology protects the headlights against harmful ultraviolet radiation, making Philips UV-coated quartz glass perfect for all driving conditions and ensures their longevity

Specifications

Packaging Data
EAN1: 8711500697424
EAN3: 8711500697431
Packaging type: S2

Product description
Technology: Halogen
Application: High beam, Low beam, fog beam
Range: DiamondVision
Type: H1
Homologation ECE
Designation: KIT-12258DV-DI
Base: P14,5s
Marking ECE: E1 21P

Electrical characteristics
Wattage: 55 W
Voltage: 12 V

Marketing specifications
Expected benefits: Style
Product highlight: Drive with style

Light characteristics
Color temperature: 5000 K
Lumens: 800 ±15% lm ±15 %

Ordering information
Order entry: 12258DVS2
Ordering code: 69742428

Outerpack information
Gross weight per piece: 445 g
Height: 12 cm
Length: 28.6 cm
Net weight per piece: 59.5 g
Width: 14.1 cm

Packed product information
Gross weight per piece: 73.8 g
Height: 13.3 cm
Length: 11 cm
Net weight per piece: 5.95 g
Width: 5.3 cm
Pack Quantity / MOQ: 2

Lifetime
Life time: B3/Tc = 150/300 h
