Choose both **quality and value**

Match your Efficia devices with Philips supplies for pulse oximetry, ECG, and non-invasive blood pressure measurement

Meeting your needs for **measurement performance and affordability**

As a healthcare professional, you need reliable performance from your Philips Efficia devices. Choosing consumables that complement your equipment allows you to get the quality you expect from Philips, at an affordable price. Efficia SpO_2 and ECG, and Value Care non-invasive blood pressure monitoring consumables, are integral parts of Efficia measurement solutions. They work together to provide you clinically reliable, accurate measurements.[1]

Efficia sensors, cables, and lead sets, and Value Care cuffs are part of our end-to-end solution for patient care. Designed carefully to meet both your clinical and economic needs, they are worthy of the Philips brand – respected all over the world for quality, reliability, and performance.

[1] These cost-effective sensors and cables have been tested and validated for accuracy on Philips Efficia monitors and defibrillator/monitors (models 863300, 863302, 863304, 866199).

Measure oxygen saturation with ease

Providing continuous, non-invasive measurement of arterial oxygen saturation, our family of durable pulse oximetry sensors are designed for cost-effective reuse. Choose from a variety of different sizes to accommodate children and adults.

Our Efficia reusable SpO_2 sensors are:
- Designed for accuracy
- Easy to clean and disinfect
- Easy to fit and reposition

The products below are all validated for use with Efficia monitors 863300, 863302, and 863304, and Efficia defibrillator/monitors 866199.
They are also compatible with any other Philips device that lists them as accessories in the device's Instructions for Use.

Combine ECG solutions to fit the situation at hand

Cover all your basic ECG monitoring needs with our family of Efficia reusable ECG cables and leads. Choose between a one-piece combined trunk cable and lead set, or a two-piece solution (a trunk cable connecting with both 3 or 5 lead sets), for additional value.

Our Efficia ECG solutions feature:

- Reusable, easy-to-clean cables
- Color-coded snap or grabber connectors for easy lead placement
- Shielded ECG wires to reduce artifacts

The products below are all validated for use with Efficia monitors 863300, 863302, and 863304, and Efficia defibrillator/monitors 866199. They are also compatible with any other Philips device that lists them as accessories in the device's Instructions for Use.
