Total Face Mask

Total Face masks allow quick fitting and eliminate nasal bridge challenges by sealing around the perimeter of the face, where patients have less pressure sensitivity and smoother facial contours.

Mask selection criteria

- Rapid application
- Mouth breather
- Claustrophobia
- Facial abnormalities
- Lack of teeth

Respironics Total

Respironics Total

Key benefits

- The clear, unobstructed view of the Respironics Total mask may help reduce the feeling of claustrophobia
- Perimeter facial contact increases comfort and simplifies fitting
- Digital Auto-Trak compatibility enhances NIV performance

For accessories, see page 23

For headgear, see page 26

Respironics Total

Description	Quantity	Product number	Part number
Respironics Total face mask	1	302433	989805609231
Respironics Total face mask head strap	1	1003052	453561517111
Respironics Total face mask head strap	9	1010609	989805610031

Respironics PerforMax Single-Use

Respironics PerforMax EE leak 2

Key benefits

- Available for adult and pediatric patients (7 years or older and > 20kg)
- Perimeter facial contact increases comfort and simplifies fitting
- The clear, unobstructed view provided by the PerforMax total face mask may help reduce the feeling of claustrophobia

Compatible with a leak 2 entrainment elbow (EE), standard elbow (SE), and bronchoscopy elbow (BE)

For accessories, see page 23

For headgear, see page 26

Respironics PerforMax single-use

Description	Quantity	Product number	Part number
PerforMax with EE leak 2 elbow, small*	1	1061619	989805627831
PerforMax with EE leak 2 elbow, large	1	1061620	989805627841
PerforMax with EE leak 2 elbow, extra large	1	1080426	989805634831
PerforMax with EE leak 2 elbow, small*	10	1052531	989805611241

PerforMax with EE leak 2 elbow, extra large	5	1080424	989805634811
PerforMax with SE standard elbow, small*	1	1061621	989805627851
PerforMax with SE standard elbow, large	1	1061622	989805627861
PerforMax with SE standard elbow, extra large	1	1080517	989805634841
PerforMax with SE standard elbow, small*	10	1052533	989805611261
PerforMax with SE standard elbow, large	10	1052534	989805611271
PerforMax with SE standard elbow, extra large	5	1080425	989805634821

* Intended for use by pediatric patients 7 years or older and > 20kg

Respironics PerforMax Multi-Use

Respironics PerforMax SE

Key benefits

- Pediatric to adult extra large size fits most patients
- Perimeter facial contact supports comfort and simplifies fitting
- The clear, unobstructed view of the PerforMax may help to reduce patient claustrophobia

Compatible with a leak 2 entrainment elbow (EE), standard elbow (SE), and bronchoscopy elbow (BE)

For accessories, see page 23

For headgear, see page 26

Respironics PerforMax multi-use

Description	Quantity	Product number	Part number
PerforMax with EE leak 2 and SE standard elbow, small*	1	1049037	989805611201
PerforMax with EE leak 2 and SE standard elbow, large	1	1049038	989805611211
PerforMax with EE leak 2 and SE standard elbow, extra large	1	1080423	989805634801
PerforMax with EE leak 2 elbow, small*	1	1047426	989805617081
PerforMax with EE leak 2 elbow, large	1	1047427	989805617091
PerforMax with EE leak 2 elbow, extra large	1	1080419	989805634761

* Intended for use by pediatric patients 7 years or older and > 20kg

Oro-Nasal Masks

Oro-nasal masks are the standard of care for hospital NIV, and the Respironics family includes a comprehensive selection of systems with features that address patient comfort, mask fitting, and ventilator compatibility.

Mask selection criteria

- Mouth breather
- Long-term NIV

Patient comfort made easy

CapStrap headgear provides excellent stability and simplifies initial setup by keeping the mask in place while you adjust the patient's straps. When you need to interrupt treatment for oral care and medications, the CapStrap headgear allows quick removal and simple reapplication. CapStrap headgear is available on several Respironics masks:

- AF531
- AF811
- PerformaTrak

Respironics AF531

AF531 with CapStrap

AF531 EE leak 1

Key benefits

- CapStrap headgear provides an excellent fit and simple reapplication
- Support your infection control efforts with the CleanClip system
- You can adapt one mask to multiple ventilators with interchangeable elbows

Compatible with a leak 1 or leak 2 entrainment elbow (EE), EE NIVO elbow (EE/NE), standard elbow (SE), SE NIVO elbow (SE/NE), and bronchoscopy elbow (BE)

For accessories, see page 23

For headgear, see page 26

Respironics AF531 with CapStrap single-use

Description	Quantity	Product number	Part number
AF531 single-use with EE leak 1 elbow, CapStrap headgear, small*	1	1061727	989805628611
AF531 single-use with EE leak 1 elbow, CapStrap headgear, medium	1	1061728	989805628621
AF531 single-use with EE leak 1 elbow, CapStrap headgear, large	1	1061729	989805628631
AF531 single-use with EE leak 1 elbow, CapStrap headgear, small*	10	1072627	989805628731
AF531 single-use with EE leak 1 elbow, CapStrap headgear, medium	10	1072628	989805628741
AF531 single-use with EE leak 1 elbow, CapStrap headgear, large	10	1072629	989805628751
AF531 single-use with SE standard elbow, CapStrap headgear, small*	1	1061730	989805628641
AF531 single-use with SE standard elbow, CapStrap headgear, medium	1	1061731	989805628651
AF531 single-use with SE standard elbow, CapStrap headgear, large	1	1061732	989805628661
AF531 single-use with SE standard elbow, CapStrap headgear, small*	10	1072630	989805628761
AF531 single-use with SE standard elbow, CapStrap headgear, medium	10	1072631	989805628771
AF531 single-use with SE standard elbow, CapStrap headgear, large	10	1072632	989805628781
AF531 single-use with EE leak 1/NE nebulizer elbow, CapStrap headgear, small*	10	1072618	989805635001
AF531 single-use with EE leak 1/NE nebulizer elbow, CapStrap headgear, medium	10	1072619	989805635011
AF531 with EE leak 1/NE nebulizer elbow, CapStrap headgear, large	10	1072620	989805635021

* Intended for use by pediatric patients 7 years or older and > 20kg.

Respironics AF531

AF531 with four-point headgear

AF531 Bronchoscopy

AF531 SE

Key benefits

- Support your infection control efforts with the CleanClip system
- You can adapt one mask to multiple ventilators with interchangeable elbows

For accessories, see page 23

For headgear, see page 26

Respironics AF531 with four-point headgear

Description	Quantity	Product number	Part number
AF531 single-use with EE leak 1 elbow, four-point headgear, small*	1	1061718	989805628521
AF531 single-use with EE leak 1 elbow, four-point headgear, medium	1	1061719	989805628531
AF531 single-use with EE leak 1 elbow, four-point headgear, large	1	1061720	989805628541
AF531 single-use with EE leak 1 elbow, four-point headgear, small*	10	1072621	989805628671
AF531 single-use with EE leak 1 elbow, four-point headgear, medium	10	1072622	989805628681
AF531 single-use with EE leak 1 elbow, four-point headgear, large	10	1072623	989805628691
AF531 single-use with SE standard elbow, four-point headgear, small*	1	1061721	989805628551
AF531 single-use with SE standard elbow, four-point headgear, medium	1	1061722	989805628561

AF531 single-use with EE leak 1 nebulizer elbow, four-point headgear, medium	10	1061734	989805634981
AF531 single-use with EE leak 1 nebulizer elbow, four-point headgear, large	10	1061735	989805634991

* Intended for use by pediatric patients 7 years or older and > 20kg.

Respironics AF531 with Leak 2 Elbow

AF531 EE leak 2

Key benefits

- Leak built into the mask
- Can be used without an additional exhalation port
- Available with four point headgear and CapStrap headgear.
- Convenient 10 Packs

For accessories, see page 23

For headgear, see page 26

Respironics AF531 with Leak 2 Elbow

Description	Quantity	Product number	Part number
AF531 with EE leak 2 elbow, four-point headgear, small*	1	1061724	989805628581

* Intended for use by pediatric patients 7 years or older and > 20kg.

Respironics AF811

AF811 EE

Key benefits

- Cushion uses a gel pad with a silicone flap for increased comfort
- CapStrap headgear system simplifies mask application and routine patient care
- Available in three sizes to fit a wide patient population

Entrainment elbow (EE)

Also available with standard elbow (SE)

For headgear, see page 26

Respironics AF811 single-use

Description	Quantity	Product number	Part number
AF811 oro-nasal single-use mask EE, CapStrap headgear, small	1	1063047	989805626321

Respironics PerformaTrak

Respironics PerformaTrak

Key benefits

- Dual-density foam forehead pads provide patient comfort and mask stability
- With only three sizes, clinicians can quickly fit a wide range of patients
- Swivel clips simplify reapplication by eliminating the need to refit after removal

Entrainment elbow (EE)

Also available with standard elbow (SE)

For headgear; see page 26

Respironics PerformaTrak

Nasal Masks

When chronically ill patients enter the hospital in respiratory distress, they typically want an NIV interface as comfortable as what they use at home. They want an unobtrusive system to maintain quality of life during their hospital stay.

Mask selection criteria

- Oral access
- Long-term NIV

Respironics PerformaTrak

Key benefits

- CapStrap headgear provides an excellent fit and simple reapplication
- With only three sizes, clinicians can quickly fit a wide range of patients
- Hook-n-loop grab tabs allow quick, easy removal and adjustment of headgear

For headgear, see page 26

Respironics PerformaTrak with CapStrap

Respironics PerformaTrak

Description	Quantity	Product number	Part number

Respironics AP111

Key benefits

- Easy sizing and fitting
- Complete kit for quick set up
- Clear field of vision
- Cradle style nasal cushion

For headgear, see page 26

Respironics AP111

Respironics AP111

Description	Quantity	Product number	Part number
AP111 interface with cradles*	1	1062128	989805626481
AP111 interface with cradles*, circuit, and main flow filter	1	1062130	989805626491
AP111 interface with cradles*, circuit, and main flow filter	5	1062132	989805626501

* Each Respironics AP111 interface includes all four cushion sizes

Respironics PN831

Key benefits

- Designed for pediatric patients one year or older (> 7kg)
- Gel cushion provides a gentle seal for sensitive skin
- Softcap headgear distributes pressure evenly over a large surface area for mask stability

Respironics PN831

Respironics PN831**

Description	Quantity	Product number	Part number
PN831 with Softcap	1	1072201	989805628441
PN831 with Softcap, circuit, and main flow filter	1	1072202	989805628451
PN831 with Softcap	5	1072203	989805628461
PN831 with Softcap, circuit and main flow filter	5	1072204	989805628471
Softcap replacement headgear, child	1	302465	989805647171

**Intended use: The PN831 Nasal Gel Mask is intended to provide an interface for application of CPAP or bi-level therapy to patients. The mask is for single use in the hospital/institutional environment only. The mask is to be used on patients one year or older (>7kg) for whom CPAP or bi-level therapy has been prescribed.

Procedure packs and accessories

Get everything you need in one bundle with our procedure packs, designed to simplify the ordering process and help you work more efficiently.

These accessories help you customize your care to suit each individual patient, large or small.

Circuits and connections

Philips offers a variety of single-use circuits, including heated-wire and non-heated-wire options, to accompany our noninvasive ventilation systems.

NIVO controller and system components

- | | | |
|---|-----------------------|---|
| 1 | AC/DC adapter | Power source or charge controller |
| 2 | Pro-X control module | Can use AC/DC adapter or internal battery (up to 45 minutes) |
| 3 | Equipment mount | Use for pole or humidifier slot mounting configuration |
| 4 | AF531 mask*** | Mask to be used |
| 5 | Control module cable | Connect controller to NIVO nebulizer |
| 6 | Nebulizer elbows (NE) | Entrainment elbow (EE) or standard elbow (SE) with nebulizer port |
| 7 | NIVO nebulizer | Aerosol generator |
| 8 | Mount adapter | Mount adapter for humidifier mounting slot |

* Each kit contains: Power source, Aerogen Pro-X, equipment mount, and control module cable.

** Each kit contains: Power source, Aerogen Pro-X and NIVO nebulizer, equipment mount, control module cable, and NE elbows (NE elbows have a port for NIVO nebulizer for both EE and SE elbows).

*** NE elbow can be added to an existing AF531 or mask can be purchased with NE elbow installed. See pages 11 – 13 for mask ordering options.

Trilogy accessories

Easy to use and maintain

The innovative technology of Trilogy sets it apart from the rest. The support, service, and upkeep behind it keep it there.

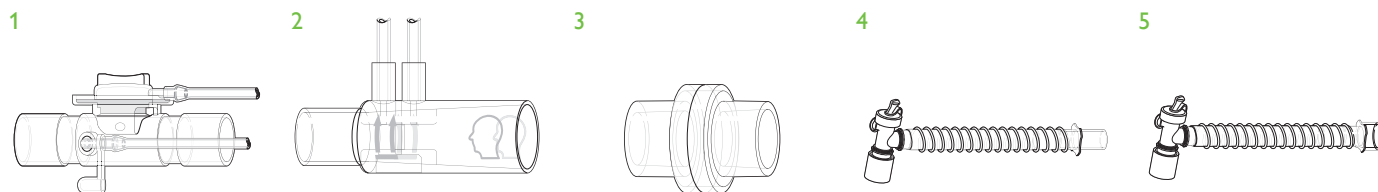

- Trilogy circuits can be used for a variety of pediatric and adult patient applications
- Passive circuits for NIV applications
- Active exhalation valve for IV application
- Circuits are available in packs of 10 and 20

Circuit adapters

The ability to use either an active valve or passive exhalation port gives you the flexibility to choose the best available circuit and interface for your patient. Trilogy's unique passive exhalation port reduces extra tubing connections.

Image	Product	Compatibility	Product number	Part number
1	Active exhalation valve with PAP assembly		1065659 – 1/pk	989805628221
2	Proximal flow sensor (Trilogy202)		1050408 – 1/pk	989805621211
			1050534 – 10/pk	989805645511
3	Disposable swivel passive exhalation port		Box of 10: 1084428	989805643161
			Box of 20: 1084429	989805646961
4	Flexible trach adapter with 15mm cuff	Connects to the flow sensor or the active exhalation valve	Box of 10: 1073863	989805633921
			Box of 20: 1073903	989805633941
