Confidence

in your patient's comfort

Philips Respironics patient interfaces and circuits for noninvasive ventilation

Delivering **exceptional** NIV

Philips Respironics masks are designed to support enhanced NIV. From comfort for your patients to ease of use for you, our interfaces are specially designed to meet the rigors of acute care environments.

Table of contents

	Total face masks	4
	Oro-nasal masks	8
	Nasal masks	16
	Packs and accessories	19
	Circuits and connections	26
	Trilogy accessories	27

Total face masks

Total face masks allow quick fitting and eliminate nasal bridge challenges by sealing around the perimeter of the face, where patients have less pressure sensitivity and smoother facial contours.

Mask selection criteria

- Rapid application
- Mouth breather
- Facial abnormalities
- Lack of teeth

Philips Respironics Total

Key benefits

- Clear, unobstructed view
- Perimeter facial contact increases comfort and simplifies fitting
- Digital Auto-Trak compatibility enhances NIV performance

For headgear, see page 26

Total

Philips Respironics Total

Description	Quantity	Product number	Part number
Total face mask	1	302433	989805609231
Total face mask head strap	1	1003052	453561517111
Total face mask head strap	9	1010609	989805610031

Philips Respironics PerforMax single-use

Key benefits

- Available for patients 7 years or older and > 40 lb (20 kg)
- Perimeter facial contact increases comfort and simplifies fitting
- Clear, unobstructed view

Compatible with a leak 2 entrainment elbow (EE), standard elbow (SE), and bronchoscopy elbow (BE)
 For accessories, see page 23
 For headgear, see page 26

PerforMax EE leak 2

Philips Respironics PerforMax single-use

Description	Quantity	Product number	Part number
PerforMax with EE leak 2 elbow, small*	1	1061619	989805627831
PerforMax with EE leak 2 elbow, large	1	1061620	989805627841
PerforMax with EE leak 2 elbow, extra large	1	1080426	989805634831
PerforMax with EE leak 2 elbow, small*	10	1052531	989805611241
PerforMax with EE leak 2 elbow, large	10	1052532	989805611251
PerforMax with EE leak 2 elbow, extra large	5	1080424	989805634811
PerforMax with SE standard elbow, small*	1	1061621	989805627851
PerforMax with SE standard elbow, large	1	1061622	989805627861
PerforMax with SE standard elbow, extra large	1	1080517	989805634841
PerforMax with SE standard elbow, small*	10	1052533	989805611261
PerforMax with SE standard elbow, large	10	1052534	989805611271
PerforMax with SE standard elbow, extra large	5	1080425	989805634821

* Intended for use by patients 7 years or older and > 40 lb (20 kg)

Philips Respironics PerforMax multi-use

Key benefits

- Available for patients 7 years or older and > 40 lb (20 kg)
- Perimeter facial contact supports comfort and simplifies fitting
- Clear, unobstructed view

Compatible with a leak 2 entrainment elbow (EE), standard elbow (SE), and bronchoscopy elbow (BE)
 For accessories, see page 23
 For headgear, see page 26

PerforMax SE

Philips Respironics PerforMax multi-use

Description	Quantity	Product number	Part number
PerforMax with EE leak 2 and SE standard elbow, small*	1	1049037	989805611201
PerforMax with EE leak 2 and SE standard elbow, large	1	1049038	989805611211
PerforMax with EE leak 2 and SE standard elbow, extra large	1	1080423	989805634801
PerforMax with EE leak 2 elbow, small*	1	1047426	989805617081
PerforMax with EE leak 2 elbow, large	1	1047427	989805617091
PerforMax with EE leak 2 elbow, extra large	1	1080419	989805634761

* Intended for use by patients 7 years or older and > 40 lb (20 kg)

Oro-nasal masks

Oro-nasal masks are the standard of care for hospital NIV, and the Philips Respironics family includes a comprehensive selection of systems with features that address patient comfort, mask fitting, and ventilator compatibility.

Mask selection criteria

- Mouth breather
- Long-term NIV
- Two cushion styles for mask rotation

Patient comfort made easy

CapStrap headgear provides excellent stability and simplifies initial setup by keeping the mask in place while you adjust the patient's straps. When you need to interrupt treatment for oral care and medications, the CapStrap headgear allows quick removal and simple reapplication. CapStrap headgear is available on several Philips Respironics masks:

- AF541
- AF531
- AF811
- PerformaTrak

Philips Respironics AF541

AF541 with four-point headgear, EE leak 1

Key benefits

- The under-the-nose cushion can be used to off load mask pressure at bridge of nose
- Push-button forehead pad adjustment, easy-to-use CapStrap headgear, and snap-in-place elbows and talon clips contribute to efficient workflow
- Discharge kit configures mask to work with home NIV systems
- CleanClip system supports your infection control efforts
- Discharge kit for patient transition to lower acuity setting

For accessories, see page 23
For headgear, see page 25

Philips Respironics AF541

Description	Quantity	Product number	Part number

AF541 discharge kit, four-point headgear, small/medium	5	1120987	989805654321
AF541 discharge kit, four-point headgear, large/extra large	5	1120989	989805654341

* Intended for use by patients 7 years or older and > 40 lb (20 kg)

Philips Respironics AF531

AF531 with CapStrap

AF531 EE leak 1

Key benefits

- CapStrap headgear provides an excellent fit and simple reapplication
- Supports your infection control efforts with the CleanClip system
- You can adapt one mask to multiple ventilators with interchangeable elbows

Compatible with a leak 1 or leak 2 entrainment elbow (EE), EE NIVO elbow (EE/NE), standard elbow (SE), SE NIVO elbow (SE/NE), and bronchoscopy elbow (BE)
 For accessories, see page 23
 For headgear, see page 26

Philips Respironics AF531 with CapStrap single-use

Description	Quantity	Product number	Part number
AF531 single-use with EE leak 1 elbow, CapStrap headgear, small*	1	1061727	989805628611

Nasal masks

When chronically ill patients enter the hospital in respiratory distress, they typically want an NIV interface as comfortable as what they use at home. They want an unobtrusive system to maintain quality of life during their hospital stay.

Mask selection criteria

- Oral access
- Long-term NIV

Philips Respironics Contour Deluxe

Key benefits

- Dual-density foam forehead pads provide patient comfort and mask stability
- With only three sizes, clinicians can quickly fit a wide range of patients
- Hook-n-loop grab tabs allow quick, easy removal and adjustment of headgear

For headgear, see page 26

Philips Respironics AP111

Key benefits

- Easy sizing and fitting
- Complete kit for quick setup
- Clear field of vision
- Cradle style nasal cushion

For headgear, see page 26

AP111

Philips Respironics AP111 single-use

Description	Quantity	Product number	Part number
AP111 interface with cradles* leak 3	1	1062128	989805626481
AP111 interface with cradles* leak 3, circuit, and main flow filter	1	1062130	989805626491
AP111 interface with cradles* leak 3, circuit, and main flow filter	5	1062132	989805626501

* Each Philips Respironics AP111 interface includes all four cushion sizes

Procedure packs and accessories

Get everything you need in one bundle with our procedure packs, designed to simplify the ordering process and help you work more efficiently.

These accessories help you customize your care to suit each individual patient, large or small.

Procedure packs

Description	Quantity	Product number	Part number
AF531 mask with EE leak 1 nebulizer elbow (no nebulizer), CapStrap headgear, and FEP circuit with main flow filter (#1)			
Small*	5	1084740	989805642171
Medium	5	1084741	989805642181
Large	5	1084742	989805642191
AF531 mask with EE leak 1 entrainment elbow, four-point headgear, and FEP circuit with main flow filter[†]			
Small*	5	1072639	989805626511
Medium	5	1072640	989805628811
Large	5	1072641	989805628821
AF811 gel mask with EE leak 1 entrainment elbow, CapStrap headgear, and FEP circuit with main flow filter and exhalation filter[†]			
Small	5	1074839	989805633171
Medium	5	1074838	989805633161
Large	5	1074837	989805633151
AF811 gel mask with EE leak 1 entrainment elbow, CapStrap headgear, and FEP circuit with main flow filter[†]			
Small	5	1074061	989805633201
Medium	5	1074060	989805633191
Large	5	1074059	989805633181
PerformaTrak mask with EE leak 1 entrainment elbow, four-point headgear, and FEP circuit with main flow filter[†]			
Small	5	1074055	989805633111
Medium	5	1074054	989805633101
Large	5	1074053	989805633091
PerformaTrak mask with EE leak 1 entrainment elbow, CapStrap headgear, and FEP circuit with main flow filter[†]			
Small	5	1074058	989805633141
Medium	5	1074057	989805633131
Large	5	1074056	989805633121

* Intended for use by patients 7 years or older and > 40 lb (20 kg)

Mount adapter for humidifier mounting slot (#8)	1	1022692	989805614261
Control module cable (#5)	1	1022706	989805613361

NIVO controller and system components

- 1 AC/DC adapter Power source or charge controller
- 2 Pro-X control module Can use AC/DC adapter or internal battery (up to 45 minutes)
- 3 Equipment mount Use for pole or humidifier slot mounting configuration
- 4 AF531 mask** Mask to be used
- 5 Control module cable Connect controller to NIVO nebulizer
- 6 Nebulizer elbows (NE) Entrainment elbow (EE) or standard elbow (SE) with nebulizer port
- 7 NIVO nebulizer Aerosol generator
- 8 Mount adapter Mount adapter for humidifier mounting slot

* Each kit contains: Power source, Aerogen Pro-X, equipment mount, and control module cable.
 ** NE elbow can be added to an existing AF531 or mask can be purchased with NE elbow installed.

Trilogy accessories

The innovative technology of Trilogy sets it apart from the rest. The support, service, and upkeep behind it keep it there.

Easy to use and maintain

- Trilogy circuits can be used for a variety of pediatric and adult patient applications
- Passive circuits for NIV applications
- Active exhalation valve for IV application
- Circuits are available in packs of 10 and 20

Circuit adapters

Image	Description	Compatibility	Product number	Part number
1	Active exhalation valve with PAP assembly		1065659 – 1/pk	989805628221
2	Proximal flow sensor (Trilogy202)		1050408 – 1/pk 1050534 – 10/pk	989805621211 989805645511
3	Disposable swivel passive exhalation port		1084428 – box of 10 1084429 – box of 20	989805643161 989805646961
4	Flexible trach adapter with 15 mm cuff	Connects to the flow sensor or the active exhalation valve	1073863 – box of 10 1073903 – box of 20	989805633921 989805633941
5	Flexible trach adapter with 22 mm cuff	Connects to Whisper Swivel II and swivel and fixed disposable exhalation ports	1073902 – box of 10 1073904 – box of 20	989805633931 989805633951

The ability to use either an active valve or passive exhalation port gives you the flexibility to choose the best available circuit and interface for your patient. Trilogy's unique passive exhalation port reduces extra tubing connections.
