

# PHILIPS

## Performance Tubing (22 mm)

Light and flexible to use

Ergonomically designed

HH1402

 Product Picture

## New Pure White Performance Tubing (22mm)

### Light and flexible

Perfect choice for smaller, lightweight masks, as it is less likely to pull on the mask and disrupt the seal.

#### **Compatibility**

- Performance tubing works well with lightweight masks

#### **Ergonomical design**

- Easy to handle

# Highlights

## Compatibility

Compatible with nearly all CPAP and BiLevel systems requiring a 22 mm non-heated hose.

## Ease of use

The ergonomically designed cuff is easy to grasp and remove from the mask or machine.

# Specifications
