HH1111

## DreamWear

### Nasal mask with mask cushion underneath the nose

The innovative design of DreamWear offers you the freedom and comfort to sleep in the way you would like.

#### **Freedom of movement**

- Soft, flexible mask frame
- Innovative mask design for more freedom in sleep therapy

#### **No red marks on the bridge of the nose**

- Cushion under the nose
- Light, flexible material designed for comfort

#### **Unobstructed view**

- Provides freedom of movement throughout the night
- Open field of vision

# Highlights

## Nasal cushion

The mask cushion lies gently under the nose, which helps to prevent pressure points on the bridge of the nose and unpleasant skin irritations on the nostrils.

## Top-of-head tube connection

The exhaled air is not discharged directly at the nose, but at the top of the head. This hose positioning allows for more freedom of movement throughout the night.

## Read or watch TV

Thanks to the open design, DreamWear offers an open field of vision, so you can easily wear glasses and read, watch TV or use a tablet PC in bed before going to sleep.

## Soft, flexible mask frame

The flexible material, through which the air flows, gently rests on the skin, prevents pressure points and provides a comfortable fit.

## Innovative mask design

The innovative design of DreamWear helps to prevent pressure sores and skin irritation on the nostrils and on the nose bridge, and allows the user, in addition to a clear field of vision, more freedom of movement through the hose connection on the head.

## Soft silicone frame

DreamWear unites comfort and aesthetics - the headgear is unobtrusive and sleek in colour, making DreamWear as discrete and un-interrupting as possible.

# Specifications

## Service

Warranty: 90-days

## Innovative design

Comfort and performance: Reduced skin irritation

## Freedom of movement

Clear field of vision: Individual sleep position
