

Remote access

Remotely change Philips advanced therapy and comfort features on patient devices including:

- FLEX
- EZStart
- SmartRamp
- OptiStart
- Auto Trak
- CPAP-Check
- AVAPS
- AVAPS-AE

Multiple patient devices on one screen

When your patient's therapy requires multiple sleep and respiratory devices, keeping track of their care can be difficult. Care Orchestrator allows you to quickly review, monitor and adjust care from one convenient screen.

Supported devices

DreamStation

DreamStation
BiPAP AVAPS

DreamStation
BiPAP autoSV

DreamStation
BiPAP ST

DreamStation Go

V30

Care Orchestrator

Sleep and respiratory care
management system

Power at your
fingertips

Why prescribe?

- Breath-by-breath waveform reports
- Manage multiple devices
- Quick access to patient therapy
- One user log-in to see all patients
- Customizable and exportable reports
- Provides short- and long-term trends

Why upgrade?

- Efficiently create and search patient records
- User-friendly interface makes it easy to navigate
- Monitor, qualify and assess patient condition – all from a single screen
- Access data from any Philips-connected device virtually at any time, from anywhere
