IPL - Hair removal
device

Lumea Prestige

For use on body

15 minutes to treat lower legs

>250,000 lamp flashes

SC2005/80

Highlights

IPL technology

Philips Lumea uses an innovative light-based technology called IPL (Intense Pulsed Light), derived from the technology used in professional beauty salons. Philips has adapted this technology for safe and effective use in the comfort of your own home. Philips worked closely with leading dermatologists to develop our breakthrough hair removal system. For more than 10 years we carried out extensive consumer research with more than 2000 volunteers.

Enjoy smooth skin every day

Philips Lumea applies gentle pulses of light to the hair root. As a consequence, the amount of hair your body grows gradually decreases. Repeating the treatment leaves your skin beautifully hair free and touchably smooth.

Effortlessly effective

Clinical results after treatment: **example 1** (leg)

Clinical results after treatment: **example 2** (bikini line)

Our clinical studies have shown significant hair reduction in as little as four fortnightly treatments resulting in smooth hair free skin. To maintain these results, simply repeat the treatment when needed. Time between treatments may vary based on your individual

hair regrowth. - To enlarge this picture, please click on the image in the image gallery on the top of this page

Suitable hair and skin types

Philips Lumea works effectively on (naturally) dark blonde, brown and black hairs. As with other light-based treatments, Philips Lumea is NOT effective on red, light-blonde or white/grey hair. Philips Lumea is also NOT suitable for very dark skin.

Application areas

Use with confidence to remove hair on body areas below the neckline: legs, underarms, bikini area, arms and belly.

Fast treatment on legs

Big treatment window for fast application on large areas like legs.

Gentle treatment

Gentle to your skin.

Cordless convenience

Lumea's unique cordless design is perfect for maximum reach and ease of use.

No replacement parts needed

Philips Lumea is a complete solution that comes ready to work right out of the box. More importantly, it does not require any replacement lamps or gels.

Slide and Flash mode

Main application mode enables sliding motion for a more convenient and continuous application.
