Infrared muscular pain
relief

HP3641

Effective pain relief

Deep penetrating infrared warmth

Philips InfraCare gives effective pain relief for muscles and joints. Its 650 Watt infrared warmth is very comfortable and penetrates deep into the skin, improving blood circulation and thereby giving effective relief for half-body areas of 60 x 40 cm.

Effective pain relief

- Deep penetrating Infrared warmth

Half-body treatment

- 650 Watt Infrared halogen lamp

Easy to use

- Adjustable angle with rotation

Treatment control

- Digital timer with automatic shut-off

Personalised warmth comfort

- Dimmer with 3 warmth settings

PHILIPS
sense and simplicity

Highlights

Deep penetrating Infrared warmth

Infrared light has been proven to effectively relieve aches and pains caused by muscular pains and stiff joints. The comfortable warmth created by infrared light penetrates deep into your skin, improving blood circulation and warming your muscles. As your muscles are soothed, they automatically loosen up and relax. At the same time, the improved blood circulation helps your body get rid of impurities and quickly sends oxygen-rich blood to stressed or aching muscles, bringing effective pain relief.

650 Watt Infrared halogen lamp

The Philips InfraCare HP 3643 has been optimised for effective relief of pains in areas covering 60 x 40 cm, such as the entire back, both shoulders and neck or the thigh. The InfraCare features innovative infrared halogen lamp technology. The special optics, filter and powerful 650 Watt halogen lamp have been

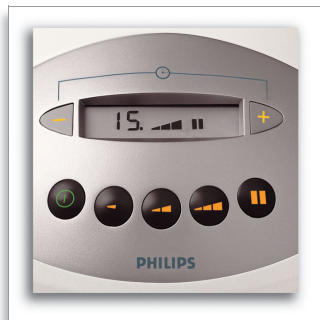

optimised, enabling half-body treatment (60 x 40 cm), and now much more comfortable warmth, as the infrared warmth is more equally divided over the treatment area.

Adjustable angle with rotation

The InfraCare HP 3643 is easy to use for half-body treatment and for different situations (e.g. lying on a bed or sofa) due to its maximum flexibility. In addition to the height adjustment, the lamp house can easily be positioned for optimum treatment of the right body part by moving it into a horizontal or vertical position (left/right 90 degrees) and by tilting it up or down (45 degrees).

Digital timer with automatic shut-off

Treatment time can easily be controlled by setting the advised or preferred number of minutes. The digital timer automatically counts down and automatically shuts off at the end of the session.

Supported by the Medical Device Directive (MDD)

This device has proven health benefits, as certified by the Medical Device Directive (MDD).

Dimmer with 3 warmth settings

The infrared warmth offered by the InfraCare can easily be adjusted to your personal preference. Three different levels of warmth intensity can be chosen, making the treatment as comfortable as possible.

Specifications

Technical Specifications

- Power: 650 W
- Voltage: 220 V
- Frequency: 50 and 60 Hz
- Lifetime of lamps: 500 hour(s)
- Cord length: 3 m
- Insulation: Class II (double isolation)

Dimensions and weight

- Product dimensions: 29.0 x 63.5 x 29.0 (WxHxD) cm
- Product weight: 5.5 kg
- F-box dimensions (= A-box): 33.9 x 80.0 x 36.5 (WxHxD) cm
- F-box weight (= A-box): 6.5 kg
- Qnt. on Euro pallet: 18 pcs

Logistic data

- CTV code: 884364101000
- Country of origin: Germany

Safety

- IEC certified: In line with IEC 60601 and 60335

Easy to use

- 2 handgrips: for easy transport and positioning

- Extendable in height: 45-80 cm
- Easily positionable lamp house: 90 degrees (left/right), 45 degrees (up/down)
- Digital user interface: for feedback on time and warmth intensity
- On/off switch

Medical appliance

- Proven health benefits: supported by Medical Device Directive certificate

Effective pain relief

- Deep penetrating warmth
- Even warmth distribution: Now up to 3 x more comfortable warmth

Half-body treatment

- Treatment area: 60 x 40 cm
- Infrared halogen lamp: 650 W

Treatment control

- Dimmer with 3 warmth settings
- Digital timer: with auto shut-off
- Pause function
