Highlights

Easy latch on

Unique valve on the teat flexes to your baby's feeding rhythm. For additional comfort, milk will only flow at the pace chosen by your baby.

Helps settle your baby

Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant feeding bottle design affects "infant behaviour". The Philips AVENT Classic baby feeding bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs. 74 min, $p=0.05$). This was especially true at night.**

Ergonomic shape

Due to the unique shape, the feeding bottle is easy to hold and grip in any direction for maximum comfort, even for baby's tiny hands.

Unique anti-colic valve

As your baby feeds, the unique valve on the teat flexes to allow air into the bottle instead of your baby's tummy.**

Compatibility across the range

The Philips AVENT Classic bottle is compatible with the Philips AVENT range, excluding Natural bottles. We advise to use the Classic bottles with Classic feeding teats only.

This bottle is BPA free*

The Philips AVENT Classic feeding bottle is made of BPA-free* material (polypropylene).

Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

Fit your baby's growing needs

The Philips AVENT Classic bottle offers different flow rates to keep up with your baby's growth. Remember that age indications are approximate as babies develop at different rates. All teats are available in twin packs.

Adapter ring

Remember to always use the Philips AVENT Classic bottle with the adapter ring (included with every Philips AVENT Classic bottle).
