

Philips AVENT
Nipple

Classic

Variable Flow 3m+

SCF635

Good feeding , good sleeping

Helps settle your baby, especially at night**

With the Philips AVENT Classic variable flow nipple, you can adjust the flow rate by simply turning the bottle. Your baby controls milk flow, which can help reduce over eating and spit-up.

Ideal for thicker liquids - 3M+

- Adjust the flow rate to baby's convenience

Air goes into the bottle, not baby's tummy

- Unique anti-colic system

0% BPA (Bisphenol A Free)

- BPA free* nipple

More comfortable feed at baby's chosen pace

- Easy latch on due to the unique valve on the nipple

Reduce fussing and discomfort

- Clinically proven to significantly reduce fussing

PHILIPS
AVENT

sense and simplicity

Highlights

Easy latch on

Unique valve on the nipple flexes to your baby's feeding rhythm. Milk will only flow at the pace chosen by your baby for more comfort.

Significantly reduces fussing

Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant feeding bottle design affects "infant behaviour". The Philips AVENT Classic baby feeding bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs 74 min, $p=0.05$). This was especially true during nighttime.**

Unique anti-colic valve

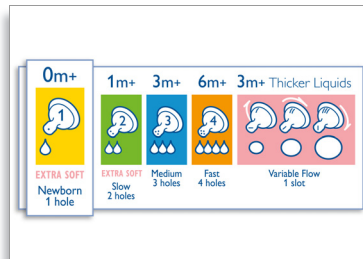

As your baby feeds, the unique valve on the nipple flexes to allow air into the bottle instead of your baby's tummy.

BPA free*

This nipple is made from silicone - a BPA-free* material

Fit your baby's growing needs

The Philips AVENT Classic bottle offers different flow rates to keep up with your baby's growth. Remember that age indications are approximate as babies develop at different rates. All nipples are available in twin packs.

Compatible with Classic bottle

We advise to use the Classic nipple with Classic feeding bottles only.

Adjust the flow rate

With the variable flow nipple, you can adjust the flow rate according to liquid's thickness and suit baby's feeding rhythm perfectly. We recommend to use this nipple for thicker liquids such as AR (thickened) milk, milk mixed with baby rice, milk mixed with baby food, soup... Once baby is ready for even thicker food, we recommend to use the Philips AVENT Thick Feed nipple.

Specifications

Country of origin

- England

Material

- Nipple: Silicone, BPA free*

What is included

- Soft, Variable Flow Nipple: 2 pcs

Design

- Nipple design: Unique skirt, Easy latch on

Nipple

- Flow speed: Variable flow
