- Automatic audio signal routing

Accessories

- User Manual

Electricity

- **Power supply:** 220-240 V

Product highlights

Disinfects completely

Protect your newborn baby from any harmful household bacteria or germs by disinfecting her bottles, teats, soothers and small plastic toys.

Defrosting baby food

Conveniently defrost any baby food that you prepared in advance and put in the freezer. This means you can have healthy baby food ready whenever your baby needs it.

Perfect temperature in 5 min.

This bottle warmer reliably heats bottles and jars to exactly the right temperature within three minutes to make sure your hungry baby doesn't need to wait long for her food. And no worries about burning baby's mouth either, thanks to the innovative heating technology.

Steams all veggies

Once your baby starts eating solid foods, you can prepare healthy steamed vegetables and fruits while preserving the vitamins and nutritional goodness.
