- Clinically proven to significantly reduce fussing

Air goes into the bottle, not baby's tummy

- Unique anti-colic system

To fit your baby's growing needs

- Five different nipple flow rates are available

Benefits and features:

- Bottles clinically proven to reduce colic
- Curved brush head and molded tip
- Translucent pacifier
- 0% BPA Product

Highlights

Fits your baby's growing needs

Five different nipple flow rates are available.

0% BPA

This product contains 0% BPA

Bottle and nipple brush

Specially curved brush head and molded handle-tip reach the corners of all types of bottles, nipples and feeding equipment for thorough cleaning.

Bottles clinically proven

Unique anti-colic system consists of the Philips AVENT nipple and adaptor ring allowing air to flow into the bottle instead of your baby's tummy for better digestion.***

Translucent pacifier

The orthodontic, collapsible nipple of the translucent pacifier respects the natural development of baby's palate, teeth and gums. All our pacifiers are made from silicone and are taste and odour-free.

Easy latch on

Unique valve on the nipple flexes to your baby's feeding rhythm. Milk will only flow at the pace chosen by your baby to minimize overeating and spit-up.

Significantly reduces fussing

Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant feeding bottle design affects "infant behaviour". The Philips AVENT Classic baby feeding bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs 74 min, $p=0.05$). This was especially true during night-time.**

Unique anti-colic valve

As your baby feeds, the unique valve on the nipple flexes to allow air into the bottle instead of your baby's tummy.***

Specifications

What is included

Bottle and nipple brush: 1 pcs
Translucent pacifier: 1 pcs
Feeding Bottle: 4 pcs

Country of origin

England

Design

Bottle design: Wide neck, Ergonomic shape
