- Clever multi-function lid design

Easy-to-clean and safe sterilising

- Easy-to-clean and safe sterilising

Highlights

Compact 2-in-1 steriliser

Efficiently sterilise your bottles and accessories by putting teats, caps and soothers in the included small basket. The steriliser also has a slender design that won't take up much space.

Natural steam sterilising

The steriliser uses natural steam to sterilise baby bottles and other products, killing 99.9% of harmful germs without using chemicals. Perfect for giving you peace of mind that all your baby bottles and other products are sterile.

Sterile for up to 24 hours

The steriliser will keep its contents—baby bottles, breast pumps, etc.—sterile for up to 24 hours if the lid is unopened.

Fast sterilisation

The sterilising cycle lasts approximately 10 minutes, after which it switches off automatically.

Spacious design

The steriliser has a compact design yet cleverly holds up to 5 Philips Avent baby bottles at once.

Open design

With an open design, it's easy to keep the heating plate clean, so you can sterilise with clean steam every time.

Works across bottle types

The steriliser is suitable for use with both standard-neck and wide-neck baby bottles. It also fits other baby products like breast pumps and accessories.

Multi-function lid design

The steriliser's lid has been cleverly designed so that it can be hung on the side of the steriliser after use or used to take out and stand the baby bottles and other products on.
