Highlights

ECO mode

ECO mode allows you to lower your energy consumption and transmission power

No installation

Ready to monitor from the moment you take it out of the box, simply plug in and switch on

Zero interference

DECT technology guarantees zero interference from any other transmitting product like other baby monitors, cordless phones and cell phones. Data encryption provides a secure and private connection, so you can be sure that you are the only one that can hear your baby

Calming and soothing

Help soothe your baby to sleep with the warm tranquil glow of the night light and soft lullabies. Also calm your baby through the 2-way talk from anywhere in the house

Choose the best sound

Enables you to adjust the sound and volume levels, so you can hear every giggle, gurgle and hic-up

Crystal clear sound

Hear every tiny giggle, gurgle and hic-up with perfect clarity. DECT technology provides high quality, crystal clear sound so you can hear your baby anytime.

Sound level lights

Lights are activated to indicate the level of sound in your baby's room. Even with the Parent Unit is muted.

Range

Indoor range up to 50 meters* Outdoor range up to 330 meters* * The operating range of the baby monitor varies depending on the surroundings and factors that cause interference.

Rechargeable wireless unit

A range up to 330m* and a comfortable neck cord you have the flexibility to be fully mobile in and around the home

Always connected

The parent unit of Philips AVENT baby monitor will alert when the power is low or if you are out of range.

Superior operating time

The small, rechargeable parent unit will give you the freedom of cordless roaming for up to 24 hours before re-charging is required
