- Clinically proven to significantly reduce fussing

Vents air away from your baby's tummy

- Clinically proven anti-colic system

More comfortable feed at baby's chosen pace

- Easy latch on due to the unique valve on the teat

Highlights

0% BPA

This product contains 0% BPA

Unique anti-colic system

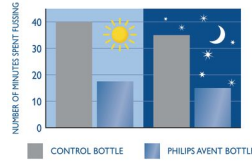

As your baby feeds, the unique valve on the teat flexes to allow air into the bottle instead of your baby's tummy.*

Easy latch on

Unique valve on the teat flexes to your baby's feeding rhythm. Milk will only flow at the pace chosen by your baby to minimise overeating and spit-up, burping and gas

Helps settle your baby

Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant baby bottle design affects "infant behaviour". The Philips Avent Classic baby bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs. 74 min, $p=0.05$). This was especially true at night.**

Fits your baby's growing needs

Five different teat flow rates are available.

Specifications

Country of origin

England

Material

BPA free*

What is included

Silicone Soother: 2 pcs

Bottle

Material: BPA free
