- Moisturises and softens dry or sensitive nipples
- With ultra-pure, medical grade lanolin and aloe vera

Feeding Bottle

- Clinically proven to significantly reduce fussing

Sealing discs and bases

- Convert all Philips Avent bottles to milk storage containers

Highlights

Gently stimulates fast milk flow

As you pump the patented Philips Avent Let-down Massage Cushion flexes in and out, gently massaging the area around the nipple to help stimulate natural milk flow.

Moisturises and softens skin

Moisturises and softens dry or sensitive nipples during breastfeeding. Hypoallergenic, odourless, with no added colouring, preservative or perfume. Easy to apply, no need to remove before breastfeeding

More milk, naturally

Expression allows breast milk to be available, even when you can't be there

Patented Let-down Massage Cushion

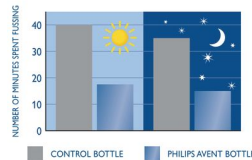

Five, soft petal massagers gently flex in and out working in tandem with the reliable vacuum. This is intended to help stimulate a fast, natural milk flow.

Sealing discs and bases

Discs convert all Philips Avent bottles and cups to milk and food storage containers. Ideal for storing/freezing your expressed breast milk. Keep your nipple, screw ring and dome cap assembly clean and compact for travel, by simply adding a sealing base

Significantly reduces fussing

Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant baby bottle design affects "infant behavior". The Philips Avent Classic baby bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs 74 min, p=0.05) This was especially true during the night-time.**

With ultra-pure, medical grade

With ultra-pure, medical grade lanolin and aloe vera

Specifications

Country of origin

England
