Highlights

Thermal bottle warming
No power needed. This is the bottle warmer that you can take anywhere with you. Boiled water in the thermos flask stays hot for up to 6 hours and can be used to warm multiple bottles.

Warms in just 2.5 minutes

The bottle warmer can warm 6oz milk in just 2.5 minutes*.

Easy pouring lid

The easy pouring lid is designed for no spills on the go. It has clear open and close positions and is easy to clean.

Protective beaker lid

The protective lid on the beaker keeps the baby bottle safely inside to ensure fast, safe warming.

Easy to use
Simply place the bottle in the beaker, pop open the pouring lid of the pre-filled thermos flask and pour the hot water into the beaker. Screw the lid on the beaker for fast, easy and safe baby bottle warming.

Warming reference guide

On the beaker a warming reference guide is included, which indicates for all Philips Avent bottle sizes how long they should be warmed, depending on the temperature of the milk.

Warms multiple feeds

Heat up multiple bottles with hot water from one pre-filled thermal flask (500 ml).

Fully compatible

The bottle warmer is fully compatible with all Philips Avent bottles and containers*. Use it to warm bottles and baby food containers conveniently.
