- Easily pump in milk storage container

## Feed

- Natural latch on due to the wide breast shaped nipple
- Unique comfort petals for an extra soft and flexible nipple

## Care

- Protect sore nipples during breastfeeding
- Silky soft feel

# Highlights

## For use in fridge/freezer

The Philips AVENT cups can be stored in the fridge or freezer and are dishwasher safe

## More comfortable position

The breast pump has a unique design, so your milk flows directly from your breast into the bottle, even when you are sitting up straight. This means you can sit more comfortably when pumping: no need for you to lean forward to make sure all your milk ends up in the bottle. Sitting comfortably and being relaxed when pumping, naturally helps your milk to flow more easily.

## Natural latch on

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

## Protect sore nipples during breastfeeding

Philips AVENT Nipple Protectors are only designed for use when you have sore or cracked nipples and should be used with health professional advice.

## Silky soft feel

Silky soft topsheet and breathable, natural materials. Dermatologically tested.

## Simple settings to choose from

When switched on, the pump automatically starts in gentle stimulation mode to get your milk flowing. Then choose from 3 pumping settings to make milk flow most comfortable for you.

## Soft massage cushion

Our massage cushion has a new soft velvety texture that gives a warm feel to the skin for comfortable, gentle stimulation of your milk flow. During pumping, it gently mimics your baby's suckling for natural let down and clinically proven effectiveness. The soft massage cushion is designed to comfortably fit the majority of moms. Should you need it, a larger size cushion is available separately (availability may vary per country).

## Unique comfort petals

Petals inside the nipple increase softness and flexibility without nipple collapse. Your baby will enjoy a more comfortable and contented feed.

## Easily pump in milk storage container

With the milk storage cup adapter, you can easily pump in the milk storage container. No leakage, no spillage of your precious breast milk.

# Specifications

## Country of origin

England

## Material

**Breast pump:** BPA free\*, Polypropylene

**Bottle:** Polypropylene, BPA free\*

**Nipple:** Silicone, BPA free\*

**Storage cups:** Polypropylene, BPA free\*
