SCD484/00

An additional connection to your baby Extra parent unit for added flexibility

Our new range of Avent Analogue baby monitors give you ultra clear sound with volume control, sound activated lights and link and low battery indicators, so you can be sure that when your baby needs you, you will know.

Ultra clear sound

- Adjustable channel settings to help eliminate interference
- Variable volume control to hear every giggle or murmur

Stay reassured whilst on the move

- Extra handled parent unit with a range up to 150m
- Sound activated lights to keep you aware of baby's sounds
- Compatible with standard models SCD485 and SCD486
- Easy link this extra parent unit in 2 steps

Highlights

Adjustable channel settings

40Mhz analogue technology offers adjustable channel settings to help to eliminate interference for a clearer connection to your baby

Volume control with mute

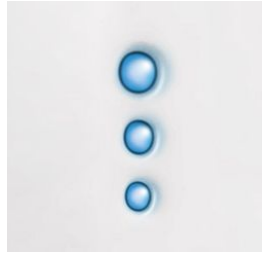

Adjust the volume of your parent unit so you can hear every tiny giggle, gurgle or hic up. You can also monitor without sound by using the mute function. The sound activated lights will let you know when your baby needs you.

Operating range

This extra parent unit with a range up to 150m helps you stay connected with your baby, even when you are far from the nursery

Sound activated lights

Lights are activated when your baby makes a sound, so even with the volume turned down low or on mute, you will know when your baby needs you

Use with standard models

For ultimate mobility, this extra parent unit can be linked to either of our standard, analogue baby monitor models SCD485 or SCD486

Easy 2 step link & go

Have extra mobility in your home in 2 easy steps. Simply turn your extra parent unit and your baby unit on, select the same channel, and when you see your green link light you are ready to go!
