PHILIPS

Specifications

Convenience

- Automatic shut-off
- Fits all bottles: All baby bottles & jar types
- Automatic audio signal routing

Accessories

- User manual

Power

- Power supply: 220-240 V

Highlights

Disinfects completely

Protect your newborn baby from any harmful household bacteria or germs by disinfecting her bottles, teats, pacifiers and small plastic toys.

De-frosting baby food

Conveniently defrost any babyfood which you prepared in advance and put into the freezer. This means you can have healthy baby food ready whenever your baby needs it.

Perfect temperature in 5 minutes

This bottlewarmer reliably heats bottles and jars to exactly the right temperature within three minutes to make sure your hungry baby doesn't need to wait long for her food. And no worries about burning baby's mouth either, thanks to the innovative heating technology.

Steams all vegies

Once your baby starts eating solid foods, you can prepare healthy steamed vegetables and fruits while preserving the vitamins and nutritional goodness.
