- Unique Petals for a soft, flexible nipple without collapse

Newborn freeflow pacifier 0-6 months

- Orthodontic, symmetrical collapsible nipple

Soothie pacifier 0-3 months

- One piece, silicone Soothie pacifier helps calm babies

Highlights

Advanced anti-colic valve

Innovative twin valve designed to reduce colic and discomfort by venting air into the bottle and not baby's tummy.

Curved brush head

Specially curved brush head and molded handle-tip reach the corners of all wide neck bottles, nipples and feeding products for thorough cleaning.

Natural latch on

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Orthodontic nipple

Philips Avent flat, drop-shaped symmetrical nipples respect the natural development of your baby's palate, teeth and gums, even if the pacifier ends upside-down in the mouth.

Unique comfort petals

Petals inside the nipple increase softness and flexibility without nipple collapse. Your baby will enjoy a more comfortable and contented feed.

Soothie pacifier 0-3 months

Used by medical professionals to calm newborns. Hospital grade silicone one piece construction, highly durable.

Specifications

Country of origin

England

Material

Bottle: BPA free*
