## Accessories

- User manual

# Highlights

## Overheat protection

To avoid the danger of accidentally burning your baby's mouth, the automatic switch off ensures the food does not get too hot.

## PTC heating element

To avoid the danger of accidentally burning your baby's mouth, the automatic switch off ensures the food does not get too hot.

## Double insulation

With your safety and convenience in mind, the double insulated bottle warmer is designed to be used in every room in the house, not just where a earthed mains socket is available. There are no exposed metal parts that can become live.
