Also available with snuggle

- Soothie is sold with snuggle, a friendly companion for baby

Highlights

Used in hospitals

Trusted by medical professionals to calm newborns, Soothies are distributed in hospitals nationwide.

Orthodontic nipple

Our collapsible silicone nipple has a symmetrical shape that respects your baby's palate, teeth and gums as he or she grows.

Unique shape

Soothies have a unique one-piece design that lets you place your finger in the nipple, so you can bond with your baby by helping him or her suckle. They are also available in a cute bear shape.

Easy to sterilize

Keeping your little one's Soothies and pacifiers clean is easy. Simply put them in your sterilizer or submerge in boiling water.

Also available with snuggle

Soothie is sold with snuggle, a plush toy that helps babies find, hold and love their Soothies. The Soothie and plush toy detach so the parts can easily be cleaned separately.
