Halfbody Studio

PHILIPS

HB 351 Halfbody Studio

Nowadays, there is no need to go to a tanning studio if the sun does not shine. With the Halfbody Studio HB 351 you can achieve an attractively tanned body in your own home.

Comfortably, and with all the privacy and hygiene of your own bedroom, you can use the solarium at the moment that is most suitable to you.

The six tubes provide you with a fast and beautifully tanned face and upper, or bottom part of your body within a few days.

The almost 3 meter long cordset makes an extension cord practically redundant.

And, the handgrip on the rearside makes carrying the product even more convenient.
