## Baby's first step to using a cup

For easy cup training

Simply add the easy-grip handles to help baby learn to drink independently. Replace the teat with the soft non-spill magic spout. Designed to be gentle on your baby's gums, the magic spout opens only when your baby drinks.

**Benefits and features:**

- Non-spill, easy-sip spout
- Easy-grip handles
- Ease the transition from bottle feeding

## Highlights

### Non-spill, easy-sip spout

Designed to be gentle on your baby's gums and easy-sip, the Magic Valve flexes when baby drinks to effortlessly deliver a continuous flow of liquid, then closes when not used to prevent spills.

### Easy-grip handles

These Easy-grip handles help your baby learn to drink independently.

### Ease the transition from bottle feeding

Baby enjoys the comfort of using a familiar bottle. The soft teat features a variable flow, which allows you to gradually increase the flow of liquid.
