

Philips Avent Digital Video Baby Monitor

The essential connection to your baby. See and hear your baby from anywhere in your home. The baby monitor enables you to maintain a secure connection with your baby at all times. As well as perfect sound quality, you can now also see your baby day and night. With a range up to 150meter, this monitor is fully portable and easy to use.

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

Energy

- Annual energy consumption <8kWh/year*
- Li-Ion battery in 'parent unit'

Packaging
