## Digital thermometer (SCH420)

## Intended use

The digital thermometer is for domestic/home use. The digital thermometer measures your or your child's body temperature in the rectum, under the tongue or in the armpit. For children younger than three years we advise you to use the digital thermometer only in the rectum.

## Important safety information

Read this important information carefully before you use the device and save it for future reference.

## Warnings

Keep the device out of reach of infants, children or pets. These products contain oil with sharp edges and small parts. Inhalation or swallowing of small parts can be a choking hazard.

Risk of swallowing batteries: The digital thermometer contains a button battery. If the battery is swallowed, it can cause severe burns in less than 2 hours and can lead to death. Battery compartment cover of the digital thermometer must be replaced properly if removed.

Always check the device for damage before use. Do not use the device when the digital thermometer has been dropped or if the amput is broken.

Do not take apart, repair or change any part of the device at any time, this could result in injury.

The digital thermometer contains strong electric or magnetic fields, for example magnets, radio transmitters or microchips. This could cause measurement errors and reduce the essential performance of the digital thermometer.

Do not use the digital thermometer within 30 cm (12 inch) of an RF device (e.g. mobile phone, monitor, DECT telephone etc.). This could cause measurement errors, but does not affect the essential performance of the digital thermometer.

**Cautions**

The digital thermometer is suitable for use at room temperatures between 10 °C (50 °F) and 40 °C (104 °F). When used outside this temperature range, accuracy of measurement may be affected.

Do not drop the digital thermometer or expose it to shocks, this might damage the device and lead to inaccurate measurements.

Do not use the digital thermometer within 30 cm (12 inch) of the digital thermometer.
