• Operating time: For optimal results, a new brush head is recommended every three months.
Items Included
• Hygienic travel cap: 3 pcs

Weight and dimensions
• Dimensions brush head packaging: 21.6 h x 7.0 w x 2.2 d cm
• Weight brush head packaging: 0.056 kg

Highlights

Snap-on brush head

Easy brush head placement and handle cleaning

Angled radial-trimmed bristles

The curved surface area created by angled, radial-trimmed bristles helps maintain contact with the surfaces of the teeth and gums as the brush head pivots, covering a larger surface area without increasing the size of the brush head.

Contoured bristles
Bristles are trimmed in a contoured pattern to fit the natural shape of teeth. The peaks and valleys along the length of the brush head are ergonomically designed to follow teeth topography and fit between teeth so you're less likely to miss places when you brush.

Maximise cleaning performance

Thoughtful design and precision engineering ensure that when this brush head is combined with the sonic motion and flexible brushing modes, you get a thorough clean.

Reminder bristles
Reminder bristles let you know when to replace the brush head. After three months of normal use bristles exhibit fatigue, and brush heads are less effective. Replace your brush head every 3 months.
