

PHILIPS

HP 705 timer

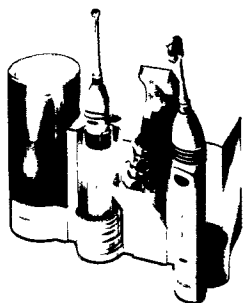

controlled pressure

Let's make things better.

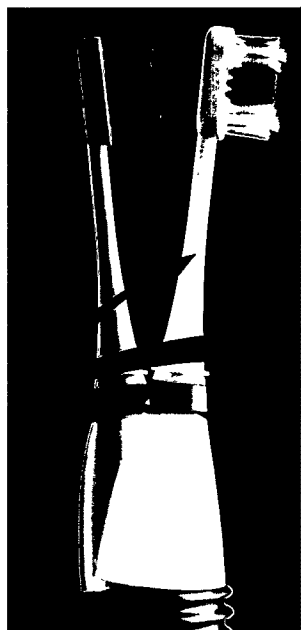

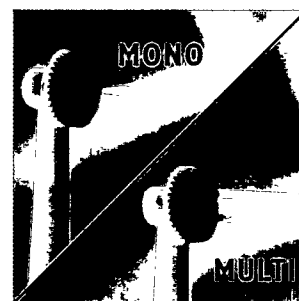

PHILIPS

HP 705 timer

Dental Centre

The Philips Dental Logic HP 705 electric toothbrush with timer fulfils the core consumer need of clean and healthy teeth through its unique pressure control system. This system ensures that all the bristles remain upright so that it penetrates and removes plaque effectively. Brushing correctly with a manual brush is difficult and time consuming. The Dental Logic system has more than 4200 movements/per minute plus the pressure control system that help you keep your teeth clean and healthy.
