- Reminder bristles ensure your most effective clean

Proven to improve oral health

- Part of a better oral healthcare routine

Better plaque removal and gum care

- Removes up to 6 times more plaque than a manual toothbrush

Provides a superior clean

- Engineered to maximize sonic motion

Designed around you

- Works with any Philips Sonicare click-on toothbrush

Highlights

A gentler experience

This Philips Sonicare toothbrush head features densely-packed, high-quality tufts to effectively remove plaque and improve gum health. Specially curved power tufts to easily reach teeth at the back of the mouth. Also features gentle trim profile to cushion teeth for an extra gentle brushing experience.

Removes up to 6x more plaque

Philips Sonicare ProResults gum health brush head is clinically proven to remove up to 6 times more plaque between teeth than a manual toothbrush after just four weeks of use.

Reminder bristles

At first glance it may not be obvious, but brush heads lose stiffness and gradually wear down over months of normal use. Our blue reminder bristles fade to white and help you recognize when it's time for a replacement. For optimal results, replace your brush head every three months.

Click-on design

Philips Sonicare brush heads click on and off the brush handle for a secure fit and easy maintenance and cleaning. Fits all Philips Sonicare toothbrush handles except: PowerUp and Essence.

Better oral healthcare

Like all authentic Philips Sonicare branded brush heads, this brush head is safe on teeth and gums. Each brush head has been quality tested for exceptional performance and durability.

Sonic technology

Philips Sonicare brush heads are vital to our core technology of high-frequency, high-amplitude brush movements performing over 31,000 brush strokes per minute. This dynamic cleaning action drives fluid deep between teeth and along the gumline, for a thorough yet gentle cleaning.
