Proven to improve oral health
- Part of a better oral healthcare routine

A brush head that fits multiple handles
- Screw-on system design for Essence, Elite, Xtreme, Advance

Highlights

Specifications

Our classic brush head

This Philips Sonicare toothbrush head features a contoured profile to naturally fit the shape of your teeth for a thorough clean.

Maximized sonic motion

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.
Screw-on brush head system

The Philips Sonicare E-Series brush heads screws-on and off your brush handle for a secure fit and easy maintenance and cleaning.

Better oral healthcare

Like all authentic Philips Sonicare branded brush heads, this brush head is safe on teeth and gums. Each brush head has been quality tested for exceptional performance and durability.

Reminder bristles

At first glance it may not be obvious, but brush heads lose stiffness and gradually wear down over months of normal use. Our blue reminder bristles fade to white and help you recognize when it's time for a replacement. For optimal results, replace your brush head every three months.
