

## Don't floss? Then AirFloss.

### Removes plaque where brushing can't

For those who don't floss consistently, AirFloss is an easy way to start cleaning between teeth. AirFloss can be used with mouthwash or water and features unique air and micro-droplet technology to help remove plaque in hard to reach areas.

### Easy to use

- Nozzle designed for easy access to hard-to-reach areas
- · Technology that cleans with a touch
- Guidance tip ensures correct placement

### Helps build a healthy habit

 $\cdot$  An easy way to improve cleaning between teeth

# Highlights

#### Air and micro-droplet technolo

AirFloss utilizes unique air and micro-droplet technology to send a burst of pressurized air and water or mouthwash between your teeth. The one-touch activation button is as simple as a mouse click.

#### **Guidance tip**

The slim angled nozzle and guidance tip make finding the correct placement easy. Just slide along the tooth's surface near the gum line until the tip fits into the groove between the teeth.

#### Slim, angled nozzle

Slim, angled nozzle designed for easy access to hard-to-reach areas

#### An easy way to start

Interproximal cleaning is very important to overall oral health. AirFloss is an easy way to clean deeper between teeth, helping to form a healthy habit. After three months of using AirFloss, 96% of inconsistent flossers continued to use AirFloss four or more days per week.\*
