More innovation, less plaque between teeth

Effective interdental cleaning for teeth and gums

Philips Sonicare FlexCare Platinum goes beyond traditional cleaning to remove up to 7x more plaque between teeth than a manual toothbrush. An intuitive pressure sensor and nine brushing combinations allow for personalized care and guidance.

Provides a superior clean

- Patented Sonicare toothbrush technology

Designed around you

- InterCare brush head

Guides you to follow dental recommendations

- Intuitive pressure sensor

Offers a customized brushing experience

- Customize your mode and intensity

Proven to improve oral health

- Quadpacer
- Smarttimer

Highlights

Sonic technology

Drives fluid between the teeth and along the gumline for a powerful yet gentle clean.

InterCare brush head

Extra-long, high-density bristles reach deeper between teeth to help remove significantly more plaque* interproximally. Ideal for patients with bleeding gums or increased risk of gum inflammation.

Intuitive pressure sensor

If too much pressure is applied, the handle gently pulsates to tell patients they are brushing too hard to guide proper technique. In a study of U.S. patients, 7 out of 10 aggressive brushers tested reduced their brushing pressure when using the pressure sensor.

9 total brushing experiences

FlexCare Platinum lets you choose from three cleaning modes — Clean, White or Gum Care — and three intensity settings — Low, Medium or High — to create a brushing experience that's perfectly tailored to you.

Smarttimer

Two-minute timer helps ensure dental professional recommended brushing time.

Quadpacer

Thirty-second interval timer encourages thorough brushing of each quadrant of the mouth.

Specifications

Modes

3 intensities: Low, Medium, High

Clean: For exceptional everyday clean

Gum Care: Gently massages gums

White: Removes surface stains

Items included

Handles: 1 FlexCare Platinum

Charger: 1
