Dramatic whitening while you sleep

Professional take-home whitening treatment

The most dramatic results for a healthy, whiter smile by night. Philips Zoom NiteWhite offers the convenience of a noticeably whiter smile while you sleep.

Professional-quality results

- A custom whitening experience designed for you
- Experiencing sensitivity?

Highlights

A formula designed for you

Philips Zoom NiteWhite offer a variety of custom professional whitening options designed specifically to fit your whitening needs. From first-time whitening to touch-ups, or from fast to gentle, Zoom provides you with a unique selection of whitening formulations that are sure to help you get the smile you've always wanted. Customized for you and applied in the comfort of your own home, Zoom NiteWhite are the only custom take-home options that help protect enamel,

provide you with advanced sensitivity relief, as well as improved luster and shine for the best possible whitening experience.

Experiencing sensitivity?

For ongoing take-home sensitivity treatment, replace your existing toothpaste with a toothpaste containing 5% potassium nitrate and use twice daily. If additional sensitivity relief is needed, use Relief ACP before each whitening treatment.
