- Compatible with Philips Avent bottles and cups
- Philips Avent cups follow the development of your child

Highlights

Leak-proof, moms confirm*

There's nothing like a good adventure. Just ask your little one. And when they're on-the-go, this leak-proof sippy cup helps ensure mess-free drinking. The unique valve means liquid only flows when your toddler sips, so you don't have to worry about little spills, or toppling cups. Don't just take our word for it either - 82% of moms agree that this cup is leak-proof*

Ultra-bite resistant spout

The My Grippy spout is ultra-bite resistant, making sippy cup drinking easy for toddlers.

Easy to grip

Your toddler will be a confident, independent little drinker in no time, thanks to this cup's easy-grip design. It's contoured shape and anti-slip texture make it easy for little hands to hold.

Few parts - easy to clean

The Philips Avent My Grippy spout cup is made up of only a few parts, making it a breeze to assemble. It comes with a hygiene cap that keeps the spout clean, and all parts are dishwasher safe for your convenience.

BPA free (0% BPA)

Like all our toddler sippy cups, this spout cup is BPA free/0% BPA.

Philips Avent compatibility

All Philips Avent bottles and cups are compatible excluding the glass bottles and the Grown-up cups/My First Big Kid Cups. So you can mix and match to create the perfect cup, suiting your toddler's individual development needs.

Healthy development

Learning to drink independently is an important step in a child's development. We try and make the transition from breast or bottle to a sippy cup as easy and as comfortable as we can. We teamed up with healthcare professionals to make sure every bottle and cup we develop stimulates and supports their growing motor and drinking skills. So whether your little one is using a nipple, soft or hard spout, straw or 360° drinking rim, you can be assured it was created with your little one's development in mind. All our drinking solutions are also premium quality, and are of course BPA-free/0%BPA.
