- Docking station to recharge your parent unit
- Superior operating time
- Comforting nightlight and lullabies to calm your little one
- Stay connected with talk back
- Monitor the temperature in the baby's room

# Highlights

## Crystal clear sound

Hear every tiny giggle, gurgle and hiccup with perfect clarity. DECT technology provides high quality, crystal clear sound so you can hear your baby any time.

## ECO max

Switch on ECO max to reduce transmission power in the baby's room. In ECO max mode, the units only connect when the baby makes a sound.

## Range 330

Indoor range up to 50 metres\* Outdoor range up to 330 metres\* \* The operating range of the baby monitor varies depending on the surroundings and factors that cause interference.

## Talk back

Sometimes all your baby needs is the soothing sound of your voice. With one click of this essential feature you can connect with your baby from anywhere around the home

## Temperature sensor

The temperature sensor with customised alert allows you to monitor the climate in your baby's room. Your baby can't regulate its body temperature as well as you can and a slight change in temperature can make your baby restless. A customised temperature sensor will immediately alert you, through the digital display on the parent unit, if the climate in your baby's room changes.

## Zero interference with DECT

DECT technology guarantees zero interference from any other transmitting products like other baby monitors, cordless phones and mobile phones. Data encryption provides a secure and private connection, so you can be sure that you are the only one that can hear your baby.

## Always connected

The parent unit of the Philips Avent baby monitor will alert when the power is low or if you are out of range.

## Adjustable sound sensitivity

Enables you to adjust the sound and volume levels, so you can hear every giggle, gurgle and hiccup

## 5 LED lights

Lights are activated to indicate the level of sound in your baby's room, even when the Parent Unit is muted.

## Docking station

A docking station enables you to conveniently recharge your parent unit.

## Night light and lullabies

Helping your restless baby to drift to sleep with a gentle lullaby and a warm tranquil glow from the night light.

## Operating time 24 hours

The small, rechargeable parent unit will give you the freedom of cordless roaming for up to 24 hours before recharging is required.

# Specifications

## Power

Operating time on battery: 18 hour(s)  
Power supply: 220-240 V  
Charging time: 10 hour(s)
