Easy to combine with breastfeeding

Natural latch on

Our Natural bottle with an ultra soft teat more closely resembles the breast. The wide breast-shaped teat with flexible design and comfort petals allows natural latch on and makes it easy to combine breast and bottle feeding.

Easy to combine breast and bottle feeding

- Natural latch on due to the wide breast shaped teat

A comfortable and contented feed for your baby

- Ultra soft teat designed to mimic the feel of the breast
- Flexible, anti-collapse ribbed teat design

Vents air away from your baby's tummy

- Anti-colic valve designed to reduce colic and discomfort

Other benefits

- Teats with different flow rates available
- Ergonomic shape for maximum comfort
- Compatible with the Philips Avent Natural range
- This bottle is BPA free*
- Simple to use and clean, quick and easy assembly
- Orthodontic soother
- Bottle brush with curved brush head for easy cleaning

Highlights

Natural latch on

The wide breast shaped teat promotes a natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Anti-colic valve

Anti-colic valve designed to keep air away from your baby's tummy, to help reduce colic and discomfort.

This bottle is BPA free*

The Philips Avent Natural bottle is made of BPA free* material (polypropylene).

260ml/9oz & 125ml/4oz bottles

The teat has an ultra-soft texture, designed to mimic the feel of the breast. The spiral design, combined with our unique comfort petals creates a flexible teat, allowing for a more natural feed without teat collapse.

Choosing the right teat

The Philips Avent Natural range offers different teat softness and increasing flow rates for every development stage of your baby.

Ergonomic shape

Due to the unique shape, the bottle is easy to hold and grip in any direction for maximum comfort, even for baby's tiny hands.

Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

330ml/11oz bottle

As your baby grows, the nipple that is best for them will change too. For older babies, our nipples have a bite-resistant smooth material with an anti-collapse design. The petals and ridges inside the teat also allow flexibility without collapse, for an uninterrupted feed.

Compatibility across the range

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it!

Orthodontic soother

The orthodontic, collapsible teat of the soother respects the natural development of baby's palate, teeth and gums. All our soothers are made from silicone and are taste and odour-free.

Specifications

Material

Bottle: Polypropylene, BPA free*

Teat: Silicone, BPA free*

What is included

Anti-colic valve

* 0% BPA, following EU regulation 10/2011

* What colic is, and how it affects babies? Colic is caused
in part by swallowing air while feeding, which creates
discomfort in a baby's digestive system. Symptoms
include crying and fussing.
