Other benefits

- Simple to use and clean, quick and easy assembly
- Bottle brush with curved brush head for easy cleaning
- Dispenser holds enough formula for three 260ml/9oz feeds
- Orthodontic, symmetrical and collapsible pacifier nipple

Highlights

Natural latch on

The wide breast shaped nipple promotes a natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Ultra soft nipple

The nipple has an ultra soft texture, designed to mimic the feel of the breast.

Flexible spiral design

Flexible spiral design, combined with our unique comfort petals to create a flexible nipple, allowing for a more natural feed without nipple collapse.

Heat resistance

The Natural glass bottle is heat and thermal shock resistant. It can therefore be safely stored in the fridge, warmed, and is also suitable for sterilization.

Pharmaceutical grade glass

Premium quality borosilicate glass to ensure the highest quality for ultimate purity.

Anti-colic valve technology

Our unique anti-colic valve technology was designed to reduce colic and discomfort, by venting air away from your baby's tummy.

Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

Orthodontic Pacifier

Flat, drop-shaped symmetrical nipples respect the natural development of your baby's palate, teeth and gums, even if the pacifier ends up upside-down in the mouth.

Curved brush head

Specially curved brush head and molded handle-tip reach the corners of all wide neck bottles, nipples and feeding products for thorough cleaning.

Formula Dispenser

The Philips AVENT milk powder dispenser holds 3 pre-measured doses of milk powder, and is ideal for travel.
