

PHILIPS

Analogue baby
monitor

SCD463/00

Digital signal confirmation

Enjoy total reliability due to the digital signal confirmation, which enables a continuous connection between the baby and the parent unit with visible and audible link indicators.

Complete peace of mind

- Minimum interference from other monitors
- Indicates a continuous connection between the two units
- Adjust the volume of the parent unit to suit any situation
- Lights up when batteries need recharging or replacing

Ultimate mobility in and around the house

- Ensures secure reception in and around house

Convenience for you and your child

- Adjust sensitivity of baby unit to suit any situation
