# Highlights

## Extra ventilation

Extra large air holes gently ventilate your baby's skin, keeping it soft and dry.

## Glows in the dark

Use ultra air's glow-in-the-dark button to quickly find your baby's soother without having to switch on the lights.

## Smooth teat

Every detail of the ultra air soother is designed to feel light and comfortable, including the smooth teat.

## 98% teat acceptance\*

When we asked mothers how their little ones respond to our textured silicone teats, an average of 98% said that their baby accepts the Philips Avent ultra soft and ultra air soothers.

## Healthy oral development

Look after your little one's oral development with a symmetrical teat that respects the natural shape of the palate, teeth and gums.

## Easy sterilisation and storage

The ultra air travel case doubles as a steriliser, so all you need to do is add some water and pop it in the microwave. Then rest easy that it's clean for the next use.
