Highlights

Gentle warming technology

This bottle warmer uses gentle warming technology. This circulates the milk, warming it gently and evenly and preventing hot spots. No hotspots means you can always be confident that your baby is enjoying perfectly warmed milk, safely.

No overheating or hot spots

The integrated sensor tracks and controls the milk temperature to ensure safe warming at all times with no hot spots or overheating

Intelligent progress indicator

The bottle warmer features an clever light progress indicator to let you know when the milk is ready in an easy way.

Auto keep warm and shut off

The baby bottle warmer features automatic keep warm and shut off functions to keep the milk at exactly the right temperature for 20 minutes before switching itself off.

Gentle defrost setting

The bottle warmer features a handy defrost setting. Safer than defrosting in a microwave and more convenient than using water, simply select the setting to defrost frozen milk or baby food to liquid.

Warms baby food too

As well as baby bottles, you can also use the bottle warmer to gently and evenly warm baby food.

Fully compatible

The bottle warmer is fully compatible with all Philips Avent bottles and containers*. Use it to warm bottles and baby food containers conveniently.

Multiple warming settings

Multiple warming settings are provided to warm the milk to different end temperatures catering to your baby's preferences.
