Breast pads

Disposable breast pads

SCF254/61

Ultra comfort and confidence

Philips Avent disposable breast pads help to support your breastfeeding journey. Honeycomb texture, ultra-thin, ultra-absorbent core and leak-proof and breathable design keep you feeling dry and comfortable, day and night.

Silky-soft feel

- Honeycomb top sheet

Ultra-absorbent

- Ultra-absorbent material and triple-layered core design

Leak-proof and breathable

- Leak-proof and breathable outer layer

Ultra-thin and discreet

- Individually wrapped for your hygiene
- 2 adhesive strips to keep pads in place
- Only 2 mm thin on average
- Developed with an expert

Highlights

Honeycomb texture

Honeycomb top sheet is soft and comfortable against your skin.

Ultra-absorbent core

Ultra-absorbent core helps to trap moisture and keep skin dry day and night.

Leak-proof and breathable

Outer layer provides a leak-proof effect to keep clothes dry, yet gives a breathable feeling.

Individually wrapped

Individually wrapped for your hygiene, perfect for on the go.

2 adhesive strips

2 adhesive strips to keep pads in place.

Ultra-thin material

Only 2 mm thin on average with contoured shape, helps to make pads invisible under clothes.

Developed with an expert

Developed in collaboration with a midwife and breastfeeding advisor who has been supporting mums with breastfeeding for 20 years.
