Highlights

Natural latch on

The wide breast shaped teat promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Unique comfort petals

Petals inside the teat increase softness and flexibility without teat collapse. Your baby will enjoy a more comfortable and contented feed.

Advanced anti-colic valve

Innovative twin valve designed to reduce colic and discomfort by venting air into the bottle and not baby's tummy.

Ergonomic shape

Extra comfortable shape, easy to hold and grip in any direction, even for baby's tiny hands.

Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

Orthodontic soother

The orthodontic, collapsible teat of the soother respects the natural development of baby's palate, teeth and gums. All our soothers are made from silicone and are taste and odour-free.

BPA free*

The Philips Avent Natural bottles are made of BPA free* material (polypropylene).

Fits your baby's growing needs

The Philips Avent Natural bottle range offers different teat flow rates to keep up with your baby's growth. Remember that age indications are approximate as babies develop at different

rates. All teats are available in twin packs: First flow, Newborn, Slow, Medium, Fast, Variable flow, and Thick feed.

Compatibility across the range

The Philips Avent Natural bottle is compatible with the Philips Avent range, excluding Classic bottles and cup handles. We advise to use the Natural bottles with Natural feeding nipples only.

Trusted by moms

Since 1984, Philips Avent has been designing and manufacturing products that are inspired by nature and have been developed through extensive research and clinical trials.
