- Gentle vacuum mimics baby's suckling for steady milk flow

#### **Helps you breastfeed longer**

- More milk, naturally

# Highlights

## Gentle-draw vacuum

The gentle-draw vacuum mimics baby's suckling to create a steady milk flow that requires less pumping.

## Patented Let-down Massage Cushion

Five, soft petal massagers gently flex in and out working in tandem with the reliable vacuum. This is intended to help stimulate a fast, natural milk flow.

## More milk, naturally

Expression allows breast milk to be available, even when you can't be there

## Personal pump parts/accessory

This Twin expression kit's funnels are only compatible with the Twin electric breast pump, due to different valves and a closed diaphragm. The Twin expression kit will not fit the manual or single electric breast pump

## Soft massage cushions

Patented massage cushions of the Philips Avent breast pump flex in and out, replicating baby's suckling action and is intended to help stimulate a fast natural let down.
