 Product Picture

## A soft and comfortable nasal pillows cushion

The DreamWear silicone pillows cushion is designed to let you sleep more comfortably with an exceptional fit and seal. \*Not available in all markets or countries.

### **Innovative Silicone pillows design**

- Exceptional comfort
- Sleep how you want
- User preferred and recommended
- Enjoy an unobstructed view
- Feels like wearing nothing at all<sup>1,2,3</sup>
- Enhanced fit and seal

# Highlights

## Exceptional comfort

With 100% silicone pillows cushions, you can experience a new level of comfort and soft touch. In fact, in a recent study, users said DreamWear silicone pillows mask has the softest nasal pillows cushion compared to their prescribed mask.<sup>3</sup>

## Sleep how you want

A unique design directs airflow through the frame of DreamWear, allowing the tubing connection to be located at the top of the head. This allows you to sleep in any position you want—on your stomach, side, or back.<sup>1,2,3</sup>

## User preferred

Users prefer DreamWear silicone pillows mask over DreamWear gel pillows and their prescribed mask<sup>4</sup>. In a recent study, 9 out of 10 users would recommend the mask to friends, family and other consumers suffering from obstructive sleep apnea (OSA).<sup>3</sup>

## Enjoy the view

DreamWear's unique design keeps the mask off your nose bridge, creating an open field of vision that lets you wear your glasses before bed, read a book or watch TV. Since the mask stays off your nose, it also means less redness and discomfort on your nose bridge.

## Innovative design

With the tubing located at the top of the head, DreamWear helps you sleep closer to your bed partner—and gets rid of the hose nose in front of your face. DreamWear silicone pillows mask is the lightest tube at the top of the head pillows mask.<sup>7</sup>

## Enhanced fit and seal

The stalk-less cone-shaped design of the silicone pillows cushion provides users with a secure fit and seal. In a recent study, users said DreamWear silicone pillows mask has a more secure fit and seal than their prescribed mask.<sup>4</sup>
