# Highlights

## Relaxing position

The breast pump has a unique design, so your milk flows directly from your breast into the bottle, even when you are sitting up straight. This means you can sit more comfortably when pumping: no need to lean forward to make sure all your milk ends up in the bottle. Sitting comfortably and being relaxed when pumping helps your milk to flow more easily.

## Soft massage cushion

Our massage cushion has a soft, velvety texture that gives a warm feel to the skin for comfortable, gentle stimulation of your milk flow. The iconic petal cushion is designed to mimic baby suckling, intended to gently help stimulate let-down.

## Easy on-the-go

The breast pump is small and lightweight, which means it is easy to store and transport, making pumping on the go more discreet.

## Easy to set up, express and clean

Few separate parts and intuitive design. Easily express milk for your baby, anytime.

## Includes our Natural bottle

The wide, breast-shaped teat promotes natural latch-on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

# Specifications

## Material

**Breast pump:** BPA-free\* (food contact parts only)

**Bottle:** BPA-free\*, Polypropylene

**Teat:** BPA-free\*, Silicone

## What is included

## Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas — Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.

\* Clinically proven comfort: Tests carried out on 110 mothers showed a significant preference for Philips Avent vs. a leading competitor

\* More comfort: 73% of 73 UK breastfeeding mothers agreed that this breast pump was more comfortable than their current pump (main market brands).

\* Independent research has shown that there may be a link between stress levels and milk production. See [www.philips.com/Avent](https://www.philips.com/Avent)

\* BPA-free breast pump: Only associated with the bottle and other parts that come into contact with breast milk. Following EU regulation, 10/2011
